Carol,

What you have is what we have. Nothing new since the water district decided in the middle to change their carbon. Will keep you posted.

Thanks,

Steve

Subject: Status of BWD Plant 6 Pilot Study

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Hi Steve and Henry - I noticed that the most recent sampling data I have is from week #6, which was collected on April 29th. I also saw Lora Fly's monthly report that says 'Discontinue 3 month capture zone analysis study @ BWD Plant 6 due to carbon change-out.' When you have the chance, pls drop me a line regarding when the most recent data was collected and whether the system is currently off-line?

Thanks,
Carol
